### Position Summary

The RN Clinical Specialist (CNS) influences patient outcomes and promotes evidence-based nursing care by applying specialty knowledge and expert clinical practice across the client, nurse, and system spheres of influence. The CNS role models clinical expertise in a specialty area and leads system wide changes which continuously improve outcomes at the client, nursing practice, and organizational level. The CNS empowers nursing through creating and supporting environments which embrace continuous quality improvement and are hallmarked by collaboration, ethical-decision making, caring, alleviation of suffering, and implementation of evidence-based practices.

Position will be responsible for ED, Short Stay and Behavioral Health areas

### Minimum Education Requirements

Master's degree from a nationally accredited graduate degree program or a nationally accredited postgraduate certificate program (as of January 01, 2012/ or reference APRN Guidelines).

### Minimum Experience Requirements

Prefer minimum 2 years RN experience in a similar ED setting (Adult Level 1 Trauma and Comprehensive Stroke Center)

Requires advanced knowledge in nursing, evidence-based practice methods, and person-centered care concepts

Knowledge of learning and teaching theories as applicable to staff, patients, and families

### License/Certifications

Current Colorado Registered Nurse License; Board certified as an APN in a population foci and listed on the Colorado Advanced Practice Nurse (APN) registry

Current Colorado Clinical Nurse Specialist License

Certification in applicable professional clinical specialty, preferred

ACLS required upon hire/transfer date

TNCC, ENPC, and NRP preferred upon hire, required within 6 months of hire/transfer date

Certified in National Institutes of Health (NIH) Stroke scale preferred upon hire, but required within 45 days of hire/transfer date

CEN preferred upon hire, required within 6 months of hire/transfer date

About St. Anthony Hospital:

St. Anthony Hospital is located in the western Denver suburb of Lakewood and is a Level I Trauma Center with four dedicated trauma rooms including the T-10 room, a dedicated field-to-surgery suite

ready 24/7 for trauma surgeons and specially trained teams who provide life-saving care to the most severely ill and injured patients. St. Anthony proudly provides a full range of medical specialties and health care services to Denver and the surrounding region with a state-of-the-art medical campus. If you're looking to be part of a fast-paced environment where you can practice to the top of your profession in trauma, cardiology, stroke, neurosciences, breast imaging, cancer/oncology care, surgery and more, we encourage you to apply. In addition to a new campus, supportive team and faith-based mission, we're proud to be the recipient of numerous awards, certifications and accreditations from the American Heart Association; Chest Pain Center (CPC); American College of Cardiology; The Joint Commission's National Quality Approval; Healthgrades (for Stroke, Critical Care and Prostate Surgery Excellence); the Emergency Nurses Association Lantern Award; NAPBC Accreditation; American College of Radiology and many others.
