Opioid/Pain Management Task Force Charges

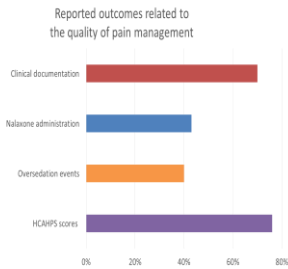

The Opioid/Pain Management Task Force has been appointed to **identify resources** that the CNS needs in order to address **appropriate opioid use/pain management** in their practice.

The task force is also asked to make recommendations to the NACNS Board of Nursing for the practice, research, education and legislative/regulatory committees to develop policy or resources to address this national healthcare crisis.

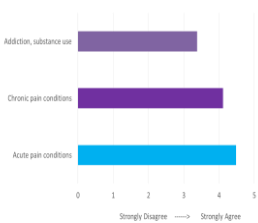

NACNS Pain Survey, Dec 2016

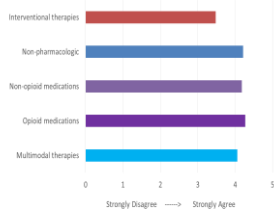

~250 Responses
74% Acute Care
84% Adult or Gerontology
Wide variety of specialties
Experience:
33% <5 year;
33% >20 years
