Dear Chairmen Walden and Burgess and Ranking Members Pallone and Green,

The Nursing Community Coalition, on behalf of the 51 undersigned organizations, urges you to make the Title VIII Nursing Workforce Reauthorization Act of 2017 (H.R. 959) a priority for the committee in the second session of the 115th Congress. H.R. 959 would reauthorize the Nursing Workforce Development programs (authorized under Title VIII of the *Public Health Service Act* [42 U.S.C. 296 et. seq]) through fiscal year 2022 and modernize the programs so they can continue to develop a workforce that meets the healthcare challenges of today and tomorrow.

For over fifty years, Title VIII has helped to build the supply and distribution of qualified nurses. These programs bolster nursing education at all levels, increase the number of nurses in the workforce, and provide support to institutions that educate future nurses to ensure the high demand for nursing care is met. Nurses supported through these programs go on to provide high-quality, evidence-based care to patients in a variety of settings, with a focus on those living in rural and medically underserved communities.

We commend the introduction of the Title VIII Nursing Workforce Reauthorization Act of 2017 and the Subcommittee on Health's role in recognizing these important programs, which advance the sustainability of America's health by ensuring they have the federal authorization necessary for funding in future fiscal years. We implore the committee to make H.R. 959 a priority for the remainder of the 115th Congress.

On behalf of the undersigned Nursing Community Coalition organizations we look forward to supporting your efforts to see this legislation passed. If the coalition can be of assistance, please contact the coalition's Executive Director, Dr. Suzanne Miyamoto, at smiyamoto@aacnnursing.org or 202-463-6930.
