The National Association of Clinical Nurse Specialists (NACNS) is dedicated to advancing CNS practice and professionalism. CNSs are registered nurses and work in a variety of health care specialties to ensure delivery of high-quality, compassionate care. The transition of the CNS Listserv to a member-only benefit has been postponed so that all CNSs can benefit from ongoing development and support. NACNS hosts several webinars available for purchase that cover topics aligning with the unique needs and interests of clinical nurse specialists. Becoming an NACNS grants you access to a variety of resources that would provide you with the tools you need to advance your career. NACNS is committed to being a partner for nurses who want to advance the profession by offering discounted registration to the NACNS Annual Conference, CNS certification discounts, and more. NACNS provides networking opportunities, advocacy, and representation at the national and state level. For more information, visit www.nacns.org.

Use Storytelling to Advance Nursing

Join our virtual conference on May 20, 2020, 1:00 P.M. (ET) — Earn 1 CE Contact Hours (Category 1). This webinar discusses current clinical recommendations for first-line HIV antiretroviral therapy, the role of the CNS in reducing hospital-acquired pressure injury and skins tears, and the role of the CNS in preventing NV-HAP by targeting modifiable risk factors. This webinar discusses substance and opioid use disorder, pain management, and dealing with challenging patient and family behaviors as a result. This webinar discusses the role of the CNS in reducing hospital-acquired pressure injury and skin tears.
